

Team: Server System Testing
Members Present: Jordan Apele,
Joey Lange*,
Garrett Dieckmann,
Kyle Monet,
Kyle Wenholz
Date(s): 11-6-2011 and 11-10-2011
*excused but not present on 11-6 and 11-10

Review of Goals:

- Wrap up installation of the server components. (Due 11-4-2011: Kyle W.)
- Generate test cases out of assigned use cases. (Due 11-6-2011: All minus Kyle W.)
- Conceptualize a file or class structure for testing client interaction with the server. (Due 11-6-2011: All)
- Review the style guide and begin comparing its rules with the actual code. (Due 11-6-2011: All)
- Complete (finalize, Tex, and run) all test cases. (Due 11-9-2011: All)

Accomplishments:

- Kyle W. finished server installation on time. Garrett even installed the server on his own system as a test.
- All team members accomplished test case generation on time.
- All team members completed conceptualization.
- All testing was complete as of 11-9-2011.
- Final defect reports and Tex submissions were made on 11-10-2011.
- The Server System Testing team finalized all goals on 11-10-2011.

New Goals:

- Await further instructions from Doctor Sawin.
- Prepare for team re-assembly.
