

Server system testing team

oh the testing...

Jordan, Joey, Garret, Kyle, and Kyle

we test **your** hub

you want a working hub

we test **Vir-Pong's** hub

Vir-Pong needs a working hub

development is not here

development is here

the server

shouting

testing the
methods

fake client
+ filler method

testing the
logic

the server

shouting

fake client
+ fake behavior

testing the
system

the server

shouting

fake client

game spy

Jordan

- use case: updating scores

Joey

- use case: client connecting to an open game

Garrett

- use case: playing a game from start to finish

Kyle M.

- use case: a generic client connection

Kyle W.

- make the server work
- give this presentation

the team

- convert the use case to a

test case

- know the IM Report and

style guide

“Beware of bugs in the above code; I have only proved it correct, not tried it.”

- Donald E. Knuth
